

This is the opening screen and shows how entering a new word at the top will bring up a list of words that rhyme with the entered word..

This part of the app shows the functionality of the Random Word and Random Topic buttons. Once either button is selected it will pop up with a word or topic at the top with similar words/topics.

This part is an example of selecting a word that was recently used. Once the word is selected it brings up a whole list of words that rhymes with the selected word. This is accessible through any menu where a list of words is brought up. All words will be clickable.
